

Managing Disasters with a CDMG

Community Disaster Management Group

The CDMG helps communities to manage disasters

The CDMG can get training from agencies that work in the field of disaster management

With a CDMG, the community can be ready to take the right actions if disaster strikes

With a CDMG, relationships between the community and other agencies can work well

See the CBDM manual to learn how to make a CDMG in your area

Community Based Disaster Management (CBDM) Program
